

Dear MRC Member,

When we say that our interns are vital to our mission to expose and neutralize the liberal media, we aren't kidding.

While our interns learn a lot during their time at the Media Research Center, they also DO a lot (and no, we don't mean getting coffee).

Check out some of the greatest recent hits of MRC interns that have made a real impact and have taken the liberal media to task in a big way

- [U.S. Army Corps of Engineers: 'Significant Environmental Damage' Possible from Dakota Pipeline Protest Camps](#)

We are enormously proud of our interns— both for the dedicated, inspiring, enthusiastic people they are and the fantastic work they do— and we're proud that the MRC Internship Programs is here to train them and set them off in the right direction.

Invest in the future of the conservative movement and help us keep this invaluable program going.

Sincerely,

Your Friends at the Media Research Center
